Team Building & Soft Skill Training Workshops

Our workshops are typically two hours in duration but can be modulated to fit your needs. We offer six different workshops that train on specific soft skills:

- Team Building / Collaboration
- Effective Communication
- Networking
- Presentation Skills
- Taking Initiative / Creative Risks
- Thinking Quickly On Your Feet

In these interactive workshops, attendees will participate in an interactive lecture and series of improvisation-based exercises led by professional improvisers. A thesis statement is set at the beginning of each workshop, and attendees will then participate in a series of improvisational activities that relate back to the key message. After each activity, a debrief is held to relate back to the key message, and an action plan is put into place.

Corporate Entertainment

Our improvisational teams will have your staff roaring with laughter for your company's next corporate event. Our performances are great for:

- Annual Meetings
- Award Ceremonies
- Client Appreciation
- Holiday Parties
- Product Launches

These high-energy performances will evoke fun and laughter, enhance your company's culture, provide team building and shared experiences, and enhance the company's morale!

Scenario Training

Scenario training focuses on client specific objectives and typically involves role-plays and individual feedback sessions. Our professionally trained actors have the ability to learn fully formatted scripts or take bullet pointed material into full role-playing sessions.
