

Meetings with an Attitude Of Energy

Mindfulness and Movement Yoga con Irma

Why and How does yoga matter?

Mindfulness and Physical activity have been credited with numerous benefits to the human physical, emotional and mental body and soul spirit. When you get out of the daily routine, you can experience an awakening of the physical senses and a rejuvenation of your deeper connection to you.

Irma's extensive corporate global Human Resources background coupled with her 15+ year yoga practice beautifully blends the gross and subtle qualities of human learning and growth into a playful and moving experience.
